

Article	LX821002	status	Active
Name	LED RGB controller RF4		
Description	12-24V DC. 3 channel x 4A. 130x64x25 mm. IP20.		
Technical parameters	Working temperature: -20 - 60°C Max out put current : 4A for each color RF Remote Controller: 85x52x13 mm		
Application	RF controller is specially designed for controlling LED multicolor changing patterns. Its slim and delicate shape enables a no-sweat installation. The design flexibility on LED fittings will be enhanced enormously. The wireless controlling system is to make your home decoration possible with industrial products. *** Please note that pressing of WHITE button (pre-programmed on the remote control unit) doesn't give exactly white color (in fact it is slightly purple). It's a technical feature and can't considered as malfunction.
